42 years old
Single
Mother tongue: French
Car & Motorbike Licence

Profile

My expertise for the last few years involves the Front End development. I am a central point liaising with Designers, Back Enders, Managers and Clients in order to provide technical support and advice, insure high quality of code and accessible interfaces, integrate templates within the final product.

I am now focusing on HTML5/CSS3, responsive web design and unobtrusive enhancement delivering a quality experience to users no matter their device.

All along this process I am always looking to produce high quality of code, comply with W3C standards and best practices, insure the appropriate strategy on specific project and work closely with all members of the team.

I am always keen to improve my skills and work with new technologies. My previous experiences gave me opportunities to work with a large range of technologies and domains such as:

- Web development : Front and Back End
- Audio / Video encoding
- Newsletter within print and web industries
- Educative Technologies deployment
- IT support
- IT teaching

Showcases

Directors UK: In charge of the template for future integration within Drupal 7. Directors UK is an organisation that can provide support, advice and opportunities in everything a director does. The members' area features video interviews, event podcasts, forums, technology reviews and a director's profile, for members to interact, advertise working availability to potential employers, add credits, website links, etc.

⇒ <http://www.directors.uk.com/>

Professional Experience

Front End Developer: From July 2007 // Reading Room Ltd - London - UK

Responsible for taking Designs, Information Architecture and Technical Specification into initial development, templates and prototypes. In order to ensure that final products conform to functionalities, designs and standards, I have to liaise with managers, designers, back-end developers and clients. I am promoting high quality and validated code, ensuring that final interfaces are accessible and usable, conforming to W3C guidelines and best practices.

Main languages:

- HTML5 ; XHTML ; CSS
- JQuery
- ASP.NET - PHP
- W3C Standards
- SEO best practices

CMS:

- Sitecore ; Immediacy ; Umbraco
- Drupal ; Wordpress
- Rhythmyx

Others:

- Attention to detail

Development tools:

- Visual Studio ; NetBeans
- SVN
- Issues Tracker
- DEV/UAT environments
- Photoshop

Multimedia Developer / IT Support: From 2004 To 2007 // Contract, freelance and volunteer work

Websites:

- Jeremy Bueno: Fashion designer (Paris - France)
⇒ <http://www.jeremybueno.com>
- Playstylz network (Youth activities network) / Silhouette Chefs (Diet meals distributor)
⇒ XHTML/CSS - PHP ; Flash animations ; Streaming videos - Editing/Converting videos from DVD format to a QuickTime format using Adobe Premiere, QuickTime and DivX converter.

Newsletters:

- Orrery and Almeida Restaurants (London - UK)
Printed via Photoshop/QuarkXpress (3000 samples per newsletter)
E-mailed (3000-5000 users) via a bespoke mailer using PHP-MySQL

IT Tools:

In charge of training in professional environments using Assessment/Differentiation and lifelong learning approach:

- Office Tools ; Mathematics ; Sciences

Education

- Master 1 - Information Creative Architect
- Bachelor's degree - Computer Science
- Two-year Diploma - Industrial Engineering and Computer-Integrated Manufacturing
- A Levels - Industrial Engineering

Activities & Interests

I enjoy travelling around the world and hiking, especially in the country side and mountains. I am currently learning Spanish and look forward to go to Granada for my next trip. I am a creature of habits and need weekly activities: cinema, squash, badminton, library, meeting friends, TV series, cooking ... very important.
